#### About the Citizen CPR Foundation and Cardiac Arrest Survival Summit

Founded in 1987, the Citizen CPR Foundation (CCPRF) is a non-profit organization with the mission to save lives from sudden death by stimulating effective community, professional and citizen action. Its founding partners are the American Heart Association, the American Red Cross and the Heart and Stroke Foundation of Canada. The Cardiac Arrest Survival Summit is the Citizen CPR Foundation's dynamic biennial conference that promotes and celebrates the art, science, and impact of cardiac resuscitation. It is the premier venue to bring together every link in the "Chain of Survival."
