

Citizen CPR Foundation Virtual Summit 2020: Putting Science into Action

December 8th & 9th, 2020

TUESDAY, DECEMBER 8th | 10:00 - 10:50 AM CST

Science and Controversies Behind the 2020 Guidelines

Join experts and thought leaders in the field of resuscitation to review, discuss, and debate the science, hot topics, and training issues with a focus on the updated 2020 guidelines, training, and implementation challenges and solutions. It has been two months since the release of guidelines and we will discuss the “what” and “why” behind the most important and controversial changes (or rationale for lack of changes) in Emergency Cardiovascular Care.

Robert Neumar, MD
University of Michigan
ILCOR Co-Chair

Raina Merchant, MD
University of Pennsylvania
American Heart Association ECC Chair
CPR Guidelines Executive Summary Chapter Chair

David Markenson, MD
Chief Medical Officer
American Red Cross

Tom Aufderheide, MD
Medical College of Wisconsin
ReSS Co-Chair

Citizen CPR Foundation Virtual Summit 2020: Putting Science into Action

December 8th & 9th, 2020

TUESDAY, DECEMBER 8th | 11:00 - 11:50 AM CST

The Foundation for Lifesaving: BLS

This session will focus on BLS Concepts in AHA healthcare training to ensure improved outcomes.

Session Content:

- How AHA's healthcare training courses firmly establish, emphasize, and build on the practice of core BLS (High-Quality CPR) skills as the foundation of all resuscitation training.
- Explore the science behind educational concepts for basic life support training including CPR Coach and high-performance teams training to improve BLS skills.

Adam Cheng, MD
University of Calgary

Elizabeth A. Hunt, MD, MPH, PhD
Johns Hopkins Medicine Simulation Center

Science and Controversies Behind the 2020 American Red Cross Focused Updates

David Markenson, MD
Chief Medical Officer
American Red Cross

Excellence in Training EMS ACLS, PALS & BLS

This session will focus on approaches from the American Heart Association and the American Red Cross on how to bring excellence to your classes.

Kenneth Navarro, PhD
UT Southwestern Medical School

S. Robert Seitz, MEd, RN, NRP
University of Pittsburgh

Citizen CPR Foundation Virtual Summit 2020: Putting Science into Action

December 8th & 9th, 2020

TUESDAY, DECEMBER 8th | 12:00 - 12:50 PM CST

Learn from the Leaders: Science Q&A with the Official AHA Guidelines Writers

In this session, the AHA Guidelines Writers will present official science updates and their impact on training and practice.

Session Content:

- Key resuscitation science and education updates.
- Focus on how updates have been implemented into AHA healthcare provider training.
- How implementation of new science and education updates will help to improve training and practice for healthcare providers.

Ash Panchal, MD, PhD
Ohio State University
Wexner Medical Center

Alexis Topjian, MD
Children's Hospital of Philadelphia

Katherine Berg, MD
Harvard Medical School

First Aid Training and Update

Elizabeth Hewett, MD
Children's Hospital of Pittsburgh of
UPMC

Excellence in Training Hospital ACLS, PALS & BLS

This session will focus on approaches from the American Heart Association and the American Red Cross on how to bring excellence to your classes.

Bryan Fischberg, NRP
Robert Wood Johnson University Hospital

Luther Cale
VP of Resuscitation & Simulation
HealthStream

Citizen CPR Foundation Virtual Summit 2020: Putting Science into Action

December 8th & 9th, 2020

TUESDAY, DECEMBER 8th | 1:00 - 1:50 PM CST

Advancing AHA Advanced Life Support Training

In this session, AHA experts will discuss game-changing improvements to AHA advanced training through integration of key resuscitation education concepts. Session content will focus on real-world implementation and localization for your specific facility to improve outcomes.

Lisa Sinz, MD, MEd,
Penn State University College of Medicine

Kenneth Navarro, PhD
UT Southwestern Medical School

Pediatric Resuscitation 101: What Every EMS Provider Needs to Know

It's part of the EMS norm to expect the unexpected but responding to a call about a pediatric patient in cardiac arrest can be especially challenging. In this session, pediatric cardiologist Dr. Joseph Rossano will offer helpful advice on ways to improve your confidence and build knowledge in handling pediatric resuscitation calls.

Joseph Rossano, MD, MS
Children's Hospital of Philadelphia

Excellence in Training Lay Responder CPR

This session will focus on approaches from the American Heart Association on how to bring excellence to your classes.

Robert Chambers
President and CEO
RC Health Services

Citizen CPR Foundation Virtual Summit 2020: Putting Science into Action

December 8th & 9th, 2020

TUESDAY, DECEMBER 8th | 2:00 - 2:50 PM CST

SCA as a Pandemic in EMS and Hospital Settings

Come join Lance and Ed as they discuss and debate the great pandemic 2020...no, not just COVID, but the ultimate homeland security threat EVERY YEAR...Sudden Cardiac Arrest!

Lance Becker, MD
Hofstra Northwell School of Medicine North Shore
University Hospital
Long Island Jewish Medical Center

Ed Racht, MD
Chief Medical Officer, Global Medical Response

TUESDAY, DECEMBER 8TH | 3:00 - 4:00 PM CST

How to Tell Your Organization's Story: Supercharge Your Marketing for 2021

Whether your organization is a non-profit grassroots advocacy group, a CPR training organization or a commercial firm selling AEDs and other resuscitation equipment, you need to connect with your audience to meet your goals. Selling an idea, product or service has common fundamentals. It's not easy in normal times to cut through the everyday noise to position your firm. With the background of pandemic, social unrest, recession and limited in-person conferences, how do you market yourself and make your firm/your mission stand out?

Building a HEARTSafe Community: The Role of Community Advocacy

HEARTSafe Community is not a new idea but the Citizen CPR Foundation is putting the energy and effort to dramatically increase the number of communities enrolled in the program. This session will address socioeconomic and ethnic disparities in survival, discuss ways for communities to become HEARTSafe and learn from those who have seen the program be enacted in their community. If you are interested in bringing the "chain of survival" to your community, growing the number of community members that are invested in improving outcomes to sudden cardiac arrest emergencies and would like to learn more - this session is for you.

Mobile Activation of Citizens

What challenges do communities face in engaging citizens to respond when CPR could save a life? How do these challenges differ in small, rural communities? Michael Sayre and Michael Levy will provide an overview of technology platforms and how they can be used to activate trained responders to treat sudden cardiac arrest. They will review pilot programs in North America and established programs from Europe and describe how learnings from these programs can be applied in your community.
